ABOUT US

Brow Boutique was established as one of the first microblading specialists in South Africa. As a studio of working artists, we have a client base of over 11 000 clients and nearly 250 students and pride ourselves on delivering the highest quality work with results and a reputation that speaks for itself.

Our head educator and Brow Boutique's founder, Jess Hollingdrake, established herself as one of the first Microblading artists in South Africa after qualifying with international Masters Training in Microblading, Permanent Makeup, Colour Knowledge and Pigment Removal .

Jess is internationally recognised **Advanced Permanent Makeup Artist and Master Trainer** with nearly a decade of industry experience. She is a member of PCASA as well as an affiliate member and corporate member of the SAAHSP. Jess is also a sponsored Pro Team Artist for international giants - Li Pigments.

Through her own experience, Jess has formulated training courses based on practical, first hand knowledge of owning and operating an established **cosmetic tattoo studio** . As a trainer - she strongly believes in affording her students the best possible foundation on which they can grow a valuable skill and excel in all aspects of their new careers.

We do not believe in shortcuts and our students are trained to meet every strict international standard. We only use the highest quality products in our own studios and do not differ in our training. Our students have access to our support groups and regular refresher classes to ensure peace of mind and high quality professional and safe permanent cosmetic treatments.
