*Brow
Boutique*

WELCOME TO OUR

Academy

Brow Boutique was established in 2016 as South Africa's first microblading specialist studio. Since carving a niche as a trusted name in the cosmetic tattooing industry.

With a client base of over 11,000 transformations and nearly 300 trained students, the studio's reputation is built on consistent, high-quality results that speak for themselves.

At the helm of Brow Boutique is founder and head educator, Jess Hollingdrake. Jess's credentials are extensive and deeply rooted in professional excellence. She is an internationally recognised Master Artist, PCASA conference speaker, a corporate member of the SAAHSP, and a sponsored Pro Team Artist for the internationally renowned Li Pigments. These affiliations underscore her standing as an expert in the industry and reflect the high standards she upholds at Brow Boutique. positioning herself as one of South Africa's leading authorities in the field.

Her commitment to excellence has been recognized globally, earning her the title of **Advanced Permanent Makeup Artist and Master Trainer**.

The training courses at Brow Boutique are a testament to Jess's experience and dedication. Having established and operated a successful cosmetic tattoo studio herself, Jess designed the courses with practical, first-hand knowledge of what it takes to succeed in this field. She believes that every aspiring artist deserves the best possible foundation upon which to build their skills. Her teaching approach ensures that students leave with not only technical expertise but also the confidence to excel in their new careers.

At Brow Boutique, shortcuts are not an option. The training programs adhere to strict international standards, equipping students to provide professional, safe, and high-quality treatments. The same premium products used in the studio are incorporated into the training, ensuring students have access to the best tools from day one. Beyond training, Brow Boutique offers continuous support to its students. Graduates gain access to dedicated support groups and regular refresher classes, fostering a community where ongoing learning and professional growth are prioritized.

Through nearly a decade of dedication, Jess Hollingdrake and Brow Boutique have solidified their position as leaders in the cosmetic tattooing industry. For aspiring artists, training with Brow Boutique is more than an educational experience—it's a gateway to a thriving career built on skill, confidence, and the legacy of one of South Africa's pioneering studios.

HOW OUR COURSES WORK

1

PICK YOUR COURSE

We offer 7 courses at Brow Boutique. Choose your desired course or contact us if you are interested in a full customised training package.

NB: Course training fee is listed on each course.

3

FILL IN YOUR REGISTRATION FORM

Our registration form can be found on page - of this brochure.

Complete the form and email it to us with the heading "REGISTRATION" to info@browboutique.co.za

5

PAY YOUR DEPOSIT

Once your registration has been received and your dates chosen, you will receive an invoice for your training.

A 50% deposit is required to secure your training. If you're financing your course, you will need to submit your invoice directly to INKfin.

2

CHOOSE A KIT & MACHINE

We offer various kit options for each training course. Choose the kit that best suits your needs and budget.

We also offer 4 PMU machines for students to choose from. If you already have a rotary machine, please contact us.

4

SELECT AVAILABLE COURSE DATES

All of our courses, besides **The Ultimate Microblading Course** have no set course dates. Dates are set to both yours and our trainers availability.

Once a registration is received - we will schedule a phone call to set dates with you. We also offer weekend and night classes at additional rates.

6

GET YOUR MANUAL

Your manual / pre-study manual will be couriered to you for self study prior to the course commencement.

For international students - a PDF version of your manual will be emailed to you.

YOU'LL RECEIVE A WELCOME LETTER VIA EMAIL A FEW DAYS PRIOR TO YOUR COURSE COMMENCEMENT

5 Techniques in ONE course

The Brow Mastery Course is designed to build your confidence and proficiency across a range of brow techniques, giving you the versatility to cater to every client's needs. Whether you're just starting out or looking to refine your skills, this course will take your brow artistry to the next level.

01

Ultimate Microblading Course:

Master the art of microblading with hands-on training, from basic strokes to advanced shading techniques. Our curriculum covers everything from skin anatomy to pigment selection, ensuring you're equipped with the skills to deliver natural, beautiful results.

02

Focus Powder Brows:

Learn the popular powder brow technique, perfect for clients looking for a soft, filled-in effect. This section of the course covers machine techniques, blending, and achieving the ideal gradient look.

03

Brow Mapping:

Precision is key. Our brow mapping module teaches you how to create balanced, symmetrical brows by understanding each client's facial structure and features, setting the foundation for all brow treatments.

04

HD Brows Sculpt & Tinting Course:

Expand your service offerings with expert training in HD brow tinting and shaping. Learn to enhance the natural brow color and define shapes that suit each client's style and preferences.

05

Photography & Styling:

Discover how to capture your work in the best light. This segment focuses on angles, lighting, and editing tips to showcase your skills and build a standout portfolio.

Training Roadmap

- PRESTUDY** ● **HOME STUDY**
- Students will be sent a 100+ page full colour training manual via courier 3 weeks prior to the course start date.
- DAY 1** ● **FUNDAMENTAL THEORY DAY**
- Theory presentation, health and safety, anaesthetics, client assessment & suitability, legal requirements, documentation, client interaction.
- DAY 2** ● **BROW MAPPING & SHAPING & HD BROWS**
- Eyebrow designing and mapping, in-depth training on client shaping and brow pre-drawing for all techniques. Learn how to mix shades and the correct application techniques for HD brows.
- DAY 3** ● **COLOUR THEORY & TECHNIQUES**
- Comprehensive color theory class where you'll learn about pigment selection, mixing, and individual procedure theory for different brow techniques. The day also introduces machine work, microblading techniques and needle selection.
- DAY 4** ● **TECHNIQUE FOCUS - MICROBLADING**
- This is a full day spent perfecting stroke patterns on artificial skins. Learning blade depth, control and technical skills.
- DAY 5** ● **TECHNIQUE FOCUS - POWDER BROWS**
- This is a full day spent learning how to use your rotary tattoo machine to create soft pixel brows. Students are taught how to control their hand-speed, outline & fill soft ombre powder brows
- **HOME PRACTICE**
- Students are given a month to practice their skills on fake skin.
- DAY 6 & 7** ● **LIVE PRACTICALS**
- Day 6 - Powder Brows // Day 7 - Microblading. Photography & Styling will form part of the live practical days. The procedures under the guidance of our educators.

A close-up, high-resolution photograph of a woman's face, focusing on her eyes, nose, and lips. She has light brown eyes and numerous freckles scattered across her forehead, nose, and cheeks. Her hair is dark and pulled back. The lighting is soft and natural, highlighting the texture of her skin.

The Course that put us on the map

For nearly a decade, Brow Boutique has specialized in the art of microblading, setting the standard for excellence in this niche. Having trained over 300 students, we've become a trusted name in the industry, empowering aspiring artists with the skills they need to succeed.

What You'll Learn

Precision Techniques:

Learn Jess's Signature technique for hyper-realistic brows, yielding the most natural microblading results for your clients

Brow Mapping & Pre-Drawing:

Understand how to design and create brows customized to each client's unique features.

Skin Anatomy & Colour Theory:

An extensive colour theory module is included in our training. This ensures artists understand the skin, its properties and how to apply pigment safely and with the best healed colour results.

Bloodborne Pathogens & Contraindications:

Dive into the theory around safe and effective microblading, medications, contraindications and client care.

Insider Industry Knowledge:

Gain insights into running a successful microblading business, including client management and branding tips.

BONUS! FREE MICROSHADING MODULE

Our Ultimate Microblading course now includes our Microshading module completely free! Learn how to create stunning powdery shaded combination brows!

Why Choose Microblading?

01 Low Startup Costs

Microblading is a cost effective start up due to equipment costs being considerably lower than permanent makeup courses and other beauty treatments. The cost of the procedure is between R300 -R400 per client to complete. The Brow Boutique Shop stocks all the consumables needed to keep you fully supplied all the time. Our products are available on our online store and are delivered anywhere in South Africa.

02 High Profits

With the costs of completing a treatment being very low, microblading profits are exceptionally high. The cost of Microblading ranges between R1000 - R3000 per procedure.

At an average of R1500 per client and only 20 Clients per month, the average earning potential is well over R30 000 per month*

03 No Experience

Our training classes, practical exercises, manuals and demo's are designed for beginners with no previous experience in permanent makeup, tattooing or beauty. We have formulated an extremely in-depth training manual that covers all aspects of theory, practical exercises, industry tips and serves as a valuable referencing tool throughout your career.

Training Roadmap

PRESTUDY

HOME STUDY

Students will be sent a 80+ page full colour training manual via courier 1 -2 weeks prior to the course start date.

DAY 1

FOUNDATION DAY

Focuses on building a strong foundation, covering theory Q&A, stroke and pattern techniques, essential technical skills, and a comprehensive pigment color theory module. Students will also explore microblading techniques, address common shaping mistakes and problematic brows, and gain insight into facial morphology for precise and personalized results.

DAY 2

BROWS IN PRACTICE

Day Two is all about hands-on skill-building, focusing on eyebrow designing, shaping, and stroke patterning. Students will practice on artificial skin, complete practical exercises, and receive take-home assignments to reinforce their learning.

DAY 3

SKINS DAY

Day Three is dedicated to refining stroke patterns on artificial skin, complemented by detailed microblading and microshading demonstration videos. Students will also receive take-home assignments to further enhance their skills.

DAY 4

BROW MAPPING

Day Four focuses brow mapping and pre-drawing. Students will participate in a practical drawing workshop and further stroke practice.

DAY 5

YOUR PRACTICAL DAY

Day Five is all about hands-on experience. Students will bring a model to class and perform their first microblading procedure under the close guidance of our experienced educators.

PMU DELUX KIT

Full Fundamental PMU Course

Our Fundamental Permanent Makeup Course is the perfect starting point for aspiring artists with no prior experience. Designed specifically for complete beginners, this course provides everything you need to confidently execute the three most in-demand techniques in the cosmetic tattooing industry.

What You'll Learn

Fundamental Theory

Our training covers essential foundational topics, including skin anatomy, colour theory, physiology, health and safety, anesthetics, client assessment, legal requirements, consent forms as well as client interaction.

Machine Work & Needle Selection

Gain a solid understanding of rotary machine mechanics, needle types, and their applications to achieve optimal pigment retention.

Powder Brows

Master the art of creating soft, natural, and beautifully defined brows using a rotary machine. This technique combines precision and artistry to achieve tailored results for every client.

Lip Blushing

Learn to enhance lips with natural, tinted finishes that restore or accentuate color while maintaining a soft, blended appearance.

Eyeliner

Refine your skills in creating beautifully defined eyeliner, from subtle lash enhancements to more striking designs, perfectly tailored to your clients' needs.

Technical Skills & Procedures

Develop core technical skills, including proper machine handling, pigment implantation, needle configurations, and precision mapping techniques. Master step-by-step procedures to deliver professional and consistent results.

Bloodborne Pathogens & Contraindications

Understand the fundamentals of safe PMU practices, including how to identify contraindications, medication considerations, and essential client care.

Training Roadmap

PRESTUDY

HOME STUDY

Students will be sent a 80+ page full colour training manual via courier 2 weeks prior to the course start date.

DAY 1

FUNDAMENTAL THEORY DAY

The first day introduces students to the essential theory of permanent makeup, including machine work fundamentals, needle selection, and technical applications.

DAY 2

INDIVIDUAL TECHNIQUES

Students will focus on developing their drawing techniques and practicing foundational skills on practice materials to build confidence.

DAY 3

ARTIFICIAL SKINS PRACTICE

Refine your abilities by practicing all three techniques—powder brows, eyeliner, and lip blush—on practice skins, ensuring precision and consistency.

DAY 4

SKILLS BUILDING

A skill-building day featuring a live instructor demonstration, hands-on brow drawing on mannequins, and training on how to set up and organize a professional procedure room.

2 - 6 WEEKS

HOME PRACTICE

Students are given a month to practice their skills on fake skin while being able to communicate and receive guidance from our trainers.

DAY 5 & 6

LIVE PRACTICALS

After honing your skills at home, return to the academy with models to perform live procedures under the close guidance of our experienced educators. These sessions provide hands-on experience and valuable feedback to perfect your techniques.

A close-up portrait of a woman's face, focusing on her eyes and lips. She has light brown eyes, dark eyebrows, and freckles. Her lips are painted with a vibrant red lipstick. The background is a soft, out-of-focus light color. Overlaid on the left side of her face is the number '06' in a large, white, serif font. To the right of the '06' is the text 'FOCUS: Lip Blushing' in a smaller, white, serif font.

KIT OPTIONS

LIP FOCUS KIT

Lip Blush Focus Course

The lip blush procedure is one of the fastest-growing services in the beauty industry, with demand increasing at an exponential rate.

Our Lip Blush Focus Course is tailored for complete beginners with no prior experience in cosmetic tattooing. This comprehensive program teaches the fundamentals of machine work using a rotary tattoo machine, along with all lip blush-specific techniques to help you confidently start your career in permanent makeup.

What You'll Learn

Fundamental Theory

Our training begins with essential theory, including skin anatomy, color theory, physiology, health and safety, anesthetics, client assessment, legal requirements, consent forms, and client interaction, all specifically tailored for lip blush procedures.

Machine Work & Needle Selection

You will gain a solid understanding of rotary machine mechanics, needle types, and their applications for optimal pigment retention, ensuring precise and lasting results for lip blush.

Lip Blushing

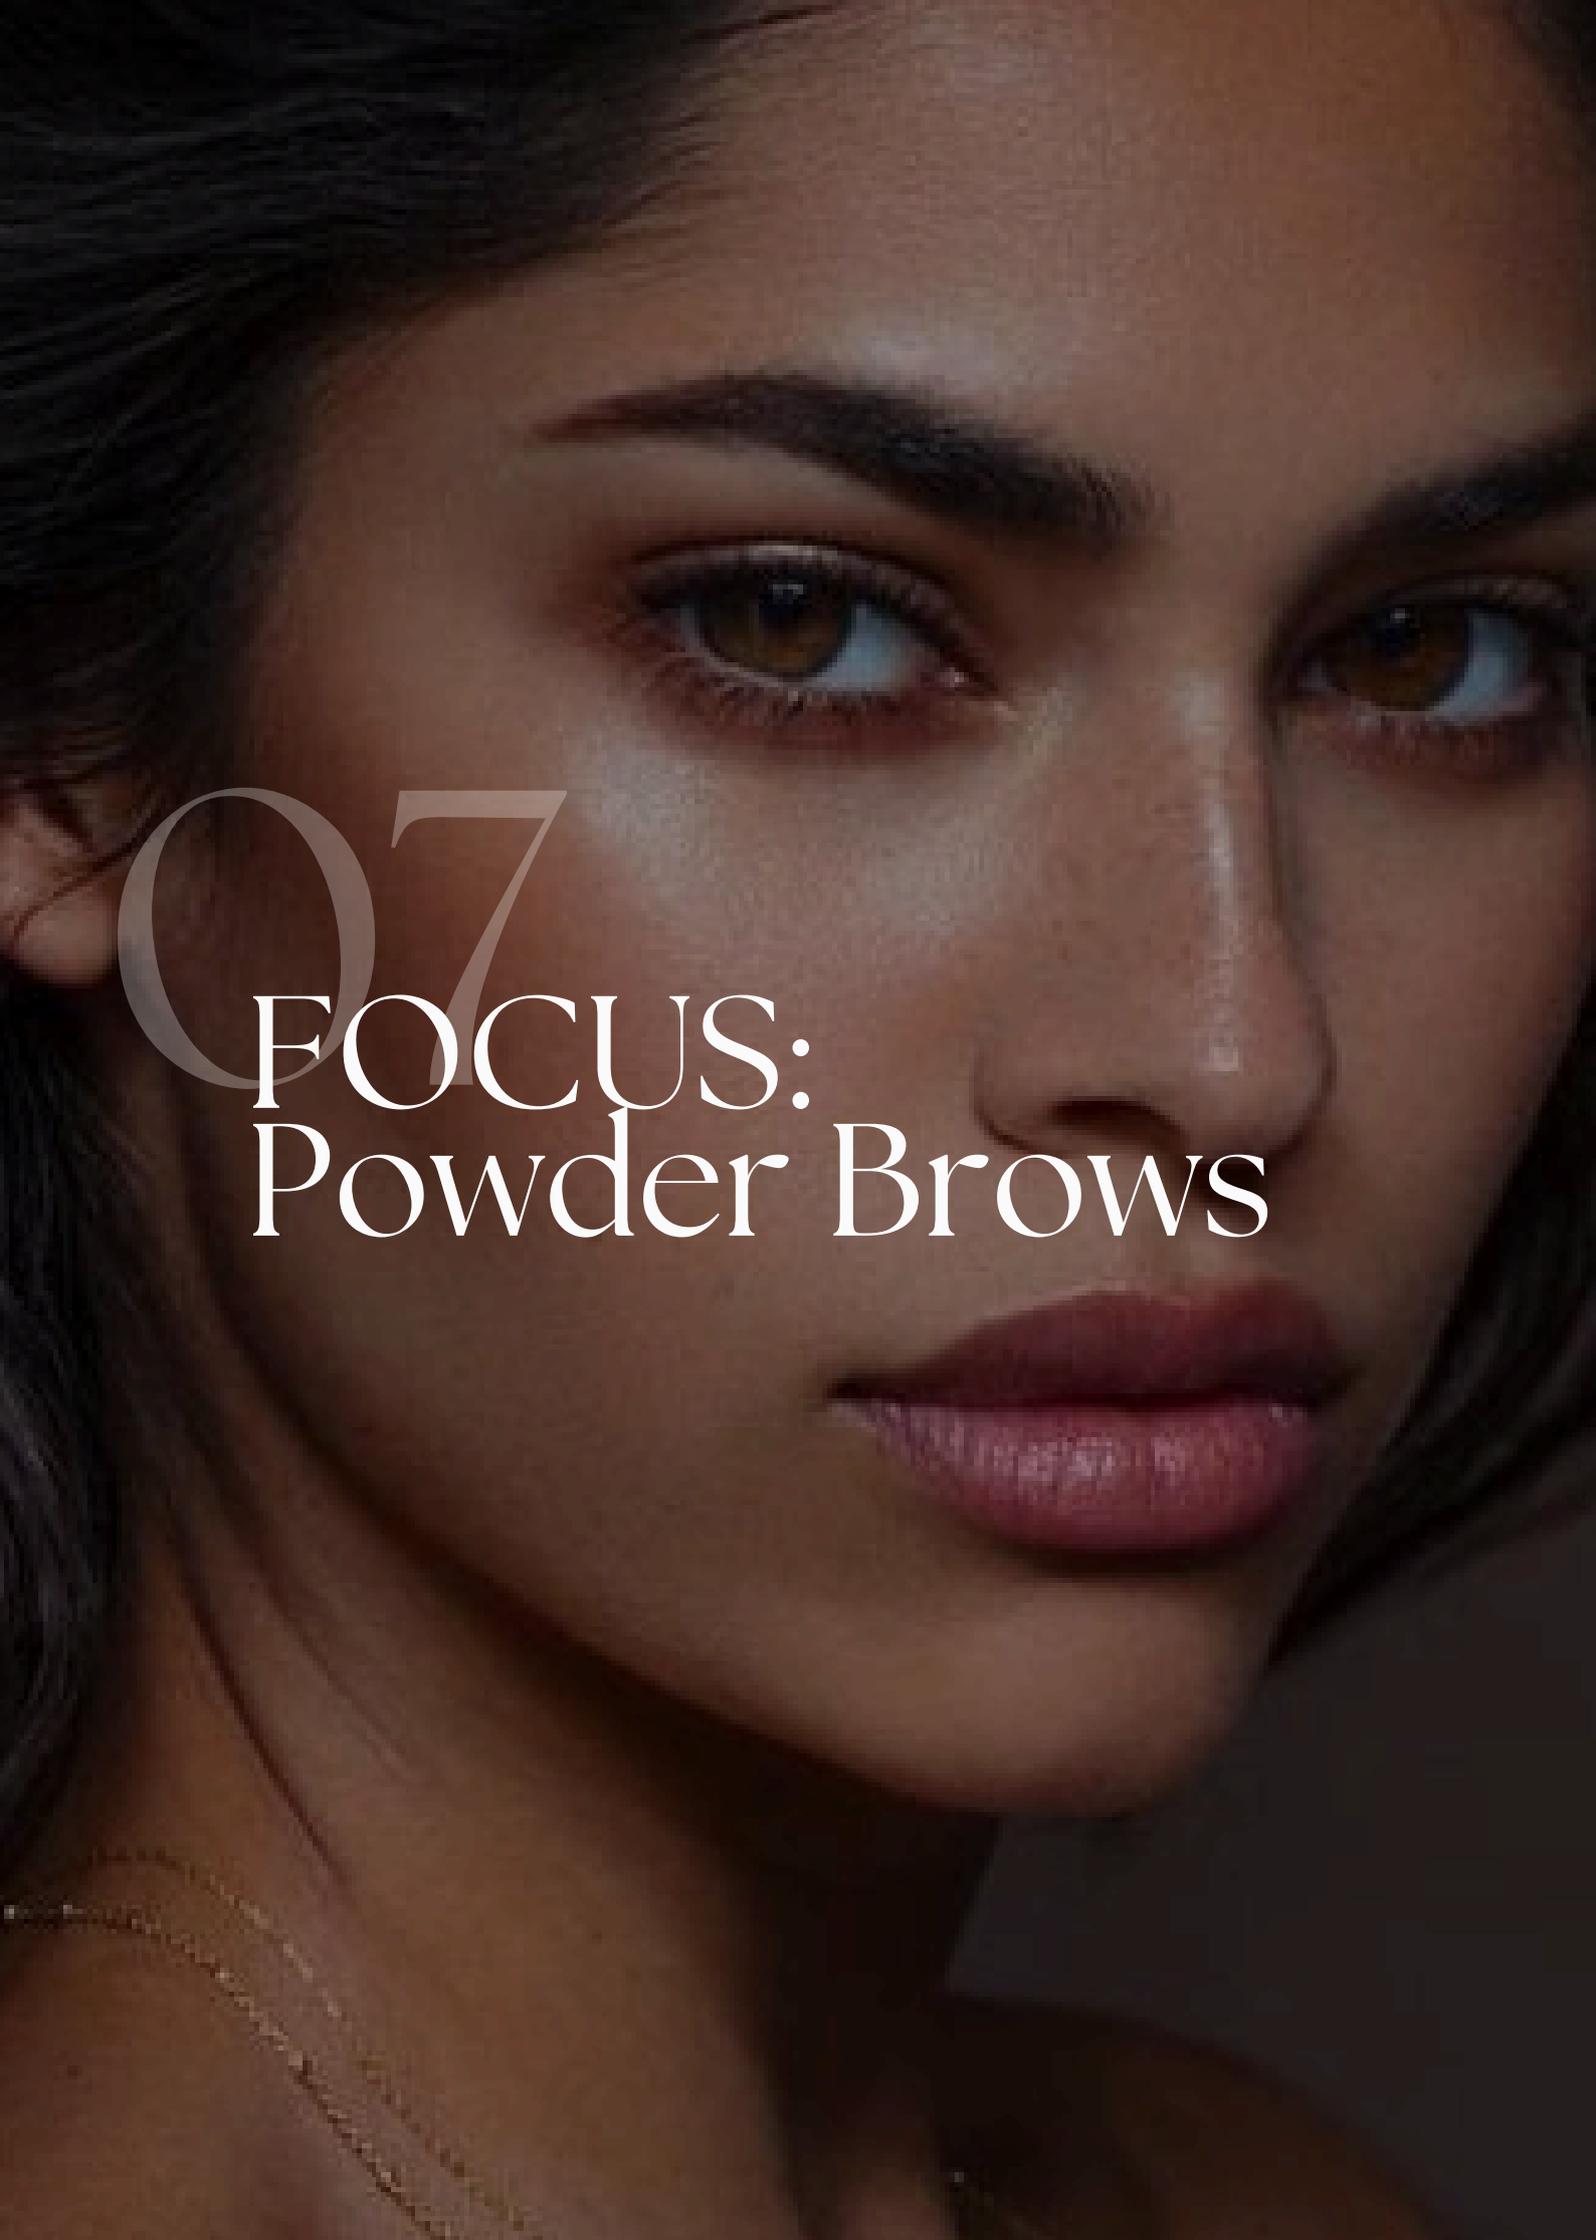

Learn to enhance lips with soft, natural, and tinted finishes that restore or accentuate color. This technique blends artistry and skill to create smooth, vibrant results while maintaining a delicate, natural appearance.

Technical Skills & Procedures

Master the core technical skills necessary for lip blush procedures, including machine handling, pigment implantation, needle configurations, and precision mapping. You'll refine each step of the process to deliver professional, consistent results.

Bloodborne Pathogens & Contraindications

Understand the importance of safe PMU practices, including identifying contraindications, considering medications, and ensuring thorough client care to maintain safety and effectiveness throughout the procedure.

A close-up, artistic portrait of a woman's face, focusing on her eyes and eyebrows. She has light brown eyes and is looking slightly to the right. Her eyebrows are filled in with a soft, natural-looking powder. She has a subtle smile and is wearing a dark, possibly black, top. The lighting is soft and directional, highlighting the texture of her skin and the definition of her features.

BROW FOCUS KIT

Powder Brow Focus Course

The Powder Brow procedure is one of the most sought-after and profitable services in the beauty industry today, with demand growing rapidly.

Our Powder Brow Focus Course is designed not only for complete beginners with no prior cosmetic tattooing experience but also for microblading artists looking to transition to machine work. This comprehensive program teaches the fundamentals of machine work using a rotary tattoo machine, alongside all the specific techniques needed for powder brows to help you confidently expand your skill set in permanent makeup.

What You'll Learn

Fundamental Theory

The course begins with essential theory, including skin anatomy, color theory, physiology, health and safety, anesthetics, client assessment, legal requirements, consent forms, and client interaction—specifically tailored to powder brow procedures.

Machine Work & Needle Selection

You'll learn how to work with a rotary tattoo machine, gaining an understanding of machine mechanics, needle types, and their applications to ensure optimal pigment retention and precision for powder brows.

Powder Brows

Master the art of creating multi-styled brows using a rotary machine. Learn how to achieve a flawless, powdery finish with natural gradients for a defined yet subtle look that suits all skin types.

Technical Skills & Procedures

Develop your technical skills, including machine handling, pigment implantation, needle configurations, and precise brow mapping. You'll practice step-by-step procedures to create perfect powder brows that deliver professional, consistent results.

Bloodborne Pathogens & Contraindications

Learn the fundamentals of safe PMU practices, including identifying contraindications, understanding medications, and providing proper client care to ensure safety and effectiveness during every procedure.

A close-up, artistic photograph of a woman's face. Her eyes are closed, and her right hand is raised to her forehead, with her fingers partially covering her eyes. She has dark, shimmering nail polish on her fingers. Her mouth is slightly open, showing her teeth, and she has a soft, reddish-brown lipstick. The lighting is soft and focused on her face, creating a dramatic and intimate atmosphere. The background is dark and out of focus.

REMOVAL KIT
INCLUDED

LI-FT® REMOVAL TRAINING

Li-FT® is an all natural, safe yet powerful and effective hypertonic saline lightening solution that contains no chemicals and no acids.

Li-FT® Saline Lightening Solution is a non-chemical, non-acid, high salt based saline tattoo lightening solution that is so effective it can lighten a tattoo or permanent makeup procedure to where it is no longer visible.

Li-FT® Saline Tattoo Removal Solution is tattooed into the area of the unwanted permanent makeup, microblading or body tattoo procedure using conventional tattoo methods. Li-FT® is a hypertonic solution, containing a higher amount of salt than the body contains...this enacts the process of Osmosis and moves the pigment upward to the outer surface of the skin and then removed by the skins natural healing process.

Our removal course is offered to qualified PMU and tattoo artists or as an “add on” to any of our rotary courses.

KIT OPTIONS

SMP Advanced Training

Scalp Micropigmentation (SMP) is a cutting-edge cosmetic tattooing procedure gaining momentum in the beauty and aesthetics industry. Designed for experienced professionals in the cosmetic tattooing field, this advanced training will equip you with the specialized techniques and knowledge to excel in this highly sought-after service. SMP offers a transformative solution for clients experiencing hair thinning, alopecia, or hairline recession. By creating the illusion of density and a natural hairline using meticulous pigment application, SMP is a life-changing service with immense market potential.

What You'll Learn

Advanced Theory

Dive deep into the theoretical foundations of SMP, including scalp anatomy, pigmentology, and advanced color theory tailored to scalp applications. Gain a thorough understanding of client consultation, managing expectations, and creating natural-looking results.

Scalp Mapping & Design

Learn advanced mapping techniques to create balanced, symmetrical, and natural hairlines that complement each client's features. You'll also refine your skills in density and shading placement for seamless results.

Machine Work & Specialized Techniques

Expand your knowledge of rotary machines and micro-needling tools, with a focus on selecting the right needle configurations for scalp pigmentation. You'll master pressure control, depth consistency, and blending techniques for long-lasting, undetectable outcomes.

Pigment Implantation & Retention

Discover how to implant pigments with precision, ensuring optimal retention and even application. Learn how to address challenging areas, such as crown coverage and scar concealment, using advanced layering methods.

Health & Safety

Understand the critical protocols for safe and effective SMP procedures, including bloodborne pathogens, sanitation, contraindications, and client aftercare. These practices ensure a professional standard of care that prioritizes client safety.

10 Kits & Machines

Machine Options

MAST P60 PRO - R10 950

The Mast P60 is a lightweight, pen-style rotary machine designed for precision and versatility across a range of PMU treatments. Featuring an adjustable stroke length, it allows artists to customise their setup depending on the procedure, from soft pixel shading to more structured liner work.

Specifications

- Battery Life: 6 to 8 hours
- Additional rechargeable battery for uninterrupted workflow
- Available in : Purple, Pink and Champagne
- Voltage Range: 4V to 10V adjustable in 0.1V increments
- Adjustable Stroke Length: 2.2 -3.2
- Grip Diameter: 23mm
- Motor: Custom Mcore-R2
- Charge Time: Approximately 2 hours via USB-C
- Compatible with most universal PMU and cartridge needles

MOST
LOVED

AVA FLORA E5 - R11 950

The Flora E5 by SoulNova is a luxury wireless PMU machine engineered for professional performance, comfort and refined control, offering stable pigment implantation across brows, lips, eyeliner and select skin treatments.

The digital voltage display allows for precise adjustments depending on technique and skin type. Presented in a premium gift box, the Flora E5 includes additional accessories to support artists from day one.

Specifications

- Battery Life: 8 to 10 hours per battery
- Luxury presentation gift box
- Voltage Range: 4V to 12V with digital display
- Adjustable Stroke Length: 2.2 -3.2
- Grip Diameter: 24mm
- Charging: USB-C quick charge
- Needle Compatibility: Universal cartridge system

VLAD BLAD ULTRON - R23 100

The Vlad Blad Ultron Pen is a compact, high-performance rotary machine engineered for precision, balance and reliability. As one of the smallest and lightest machines on the market, it offers exceptional manoeuvrability and reduced hand fatigue during longer procedures. Ultron delivers stable power and refined control. It is an extremely versatile machine suitable for both cosmetic tattooing and body tattooing, adapting seamlessly across lining, shading and colour work.

***Not wireless - Includes a power supply & RCA**

Design & Size

- Length (without cartridge): 104 mm
- Body diameter: 23.5 mm
- Grip diameter (widest point): 27 mm
- Weight without grip: 78.5 g

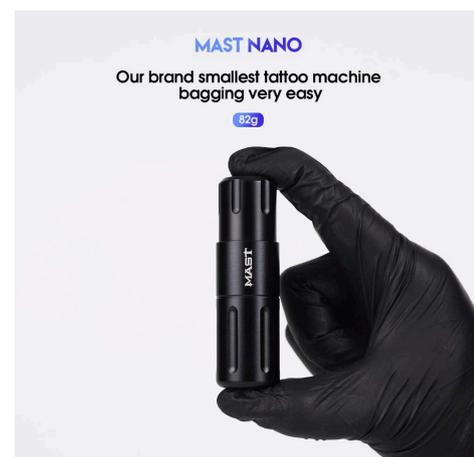

MAST NANO WIRELESS - R6 200

The Mast Nano Wireless Pen is a compact, lightweight machine engineered for smooth and consistent performance. Powered by a coreless motor and featuring a 3.2mm stroke, it delivers stable pigment implantation with minimal vibration, making it suitable for both beginner and advanced artists.

Designed for precision and comfort, the Nano offers balanced control across a variety of techniques including lining, shading and soft saturation work. Its wireless battery system ensures flexibility and ease of movement during procedures.

Specifications

- Battery Life: 8 to 10 hours per battery
- Luxury presentation gift box
- Voltage Range: 4V to 12V with digital display
- Adjustable Stroke Length: 2.2 -3.2
- Grip Diameter: 24mm
- Charging: USB-C quick charge
- Needle Compatibility: Universal cartridge system

11 TESTIMONIALS

“Jess is extremely attentive and patient teacher”

“Jess Hollingdrake is an amazing teacher, my experience so far with my microblading training course has been an exciting and insightful time. Jess is extremely attentive and patient teacher, her knowledge from all her years microblading has eased me into gaining confidence in my training and in myself and I'm so grateful for the course.”

Jessica Fernandez

“So much skill, dedication and passion for her work!”

" Wow..... My training at Brow Boutique SA has been one amazing experience!!!

Jess is a great lecturer, with so much skill, dedication and passion for her work! Thank you Jess for everything! Enjoyed every second of my training! xx"

Monique Alberts

“The ultimate place to start your dreams”

“Best training ever.. Great trainers, so much care and too much talent.. Thank you for an awesome course and all the follow-ups.. The ultimate place to start your dreams and get your microblading career going.”

Sanell Senekal

“I feel confident through my training to start my journey”

" I couldn't have chosen a better training course than the one Brow Boutique offered me in microblading. Jess and Aleesha are both gems, so willing to impart their knowledge during and after the course. I feel confident through my training to start my journey as a microblading artist. Thank you both, it's been life changing x"

Tamsyn Jade Postma

“Amazed at how much I learnt in a few days”

" Training was fantastic! I was very nervous and amazed at how much I learnt in a few days. Jess is awesome and so talented, very blessed to have been trained by her! Thank you Brow Boutique, Aleesha and Jess were patient and so great to everyone learning. I would recommend them over and over!!!"

Vivienne Louw

“Very informative and intensive”

" Best training for Microblading, Thank you Jess. Very informative and intensive I have really learnt so much from you and the amazing advice you share. Thank you to everyone at Brow Boutique & Nikki van Gend for the amazing colour workshop this weekend!"

Adrienne O'Brien
